The School of Oncological Reconstructive Surgery was founded with the scope of increasing knowledge in the area of reconstructive oncology. Founded in June, 1999 by Dr. Maurizio Nava, director of the Plastic and Reconstructive Surgery Unit of the Fondazione IRCCS Istituto Nazionale dei Tumori di Milano. The goals of the School are:

- To contribute in increasing information available in the area of oncological reconstructive surgery.
- To organize and promote Courses, Seminars and Congresses on this area of speciality.
- To develop research in oncological reconstructive surgery and produce journals and multi-media material.
